that's why I've been trying to help you with the eplenary 😊

14:58

You think they're really going to try and stitch me up with something else. You said that the minute I told you about the DNA and fingerprints.

ruth, 14:59

RC

Fluff there is a difference between checking to see if they can find evidence that you committed another crime 😊

14:59

Keeping in mind my fingerprints and retina are in the Japanese system, Finnish and eh, one other I forget

however 😊

they've certainly twisted witness statements against you 😊

how far will they go 😊

I don't know 😊

I find it hard to believe they did the third raid 😊

You would actually have to ask Irishtown to try bring a halt to my returning on hunger strike. That would have to happen. I guess.

They would have soft drop the charges before formally dropping them because they arr being sued into the ground.

If I die - with all this laid out in clarity Gleeson would be the target of a wrongful death and possibly without a corrupt dpp, manslaughter.

But no one is going to explain that to them right?

Their position is irretrievable. I die it is them bullying a cripple to death.

For 4. Years.

It is actually indefensible. Only mitigation happens for them. Nothing.

They have had less than nothing for 4 years and to be able to go forward with less than nothing they had help.

Is there any point? Gleeson was literally told - on hunger strike returning to die in custody and he didn't pause to reserve the expression of glee.

Literally emailed the assistant commissioner and said x y z are you absolutely sure this is what you want.

If there was no forensic report until 2021. How did GSOC conclude a report mentioning iirc no forensic evidence. I mean..... lol

In 2020. A full year prior to their being any forensic report.

Not fit for purpose? It is colluding to pervert cases.

Imagine being such a little weird fucked up narcissist - that by filing a breach of barring order - you actually prove you committed perjury.

I don't know if there's any point re: the script - Gleeson is dirty and a sadist.

It'll be real funny when they try to rough me up and end up setting off catastrophic internal bleeding that can't be stopped due to starvation.

I think I'm content to return and let them claw their win out of nothing in 3 days.

Imagine... the A&E doctors not only warned him...what he was doing was illegal... but gently hinted at him...I might be trouble

AT THAT POINT they and remember you wrote the book on evidence - and your bio says also general practice - They were already at breach of duty including statutory, professional negligence, in breach of constitutional tort, they had broken the scope of the warrant, the interrogation was at liability, further they were as per Greally's judgement - clearly harassing a "manifestly vulnerable person" vulnerable persons being protected under law.
